

Application No. 10/716,843
Amendment Dated December 2, 2005
Reply to Office Action of October 7, 2005

As to the polyamic acid (PAA) and the corresponding PAI, applicant elects a molecule as defined by the formulas shown on pages 6 through 9 of the application wherein X is either $-\text{C}(\text{CH}_3)_2-$ or $-\text{SO}_2-$ (see page 7) but, if the Examiner requires even more precision, then Applicant elects $-\text{C}(\text{CH}_3)_2-$.

Should the Examiner believe that anything further is desirable in order to place the application in even better condition for allowance, the Examiner is invited to contact Applicants' undersigned attorney at the telephone number listed below.

Respectfully submitted,

CAESAR, RIVISE, BERNSTEIN,
COHEN & POKOTILOW, LTD.
